

NAGATA

Automated pad cutting system
that fits complex curvatures
with minimal waste

Easily and instantly created by anyone

PO Cutting System

Cutting plotters

Manual work with scissors

- Difficult to create shapes that fit the curvature
- Shape variations occur depending on the worker
- Time-consuming and inefficient
- Low reproducibility makes it unsuitable for mass production

Automatic cutting by introducing the PO cutting system

- Anyone can easily design with dedicated software
- Constantly uniform shapes
- Shortened work time allows focus on main tasks
- Shapes can be memorized and reproduced at any time

Example of cutting plotter machine type

- Verified to operate on Windows 11
- Supports both Japanese and English
- Not for use with non-recommended devices
- Internet connection is not recommended
